WHIRLPOOL, SPA COMBINATION WHICH IS RIGHT FOR YOU?

Some basic information about whirlpool and spa systems

Whirlpool
Jets in the side of the bath

A whirlpool offers zoned massage from jets set into the side walls of your bath, which can be angled to give relief where it's most required. A power adjustment control allows you to regulate the amount of air mixed with the water: the more air, the greater the massage effect. We offer the choice of manual or electronic controls to do this for you. We also offer the choice of up to 8 side-mounted jets and up to 4 jets at the back and foot.

Spas
Jets in the base of the bath

Bronte spas feature 12 or more jets built into the base of the bath only. These deliver streams of warm air bubbles, rather than a pressurised mixture of air and water, to give you a genuine 'bubble bath'.

SmoothSpa option
Tiny holes in the base of the bath

Most Bronte baths are available with the SmoothSpa option. Instead of jets in the base of the bath, only small holes are visible, giving a smooth base to the bath.

Combination
Both systems in one bath

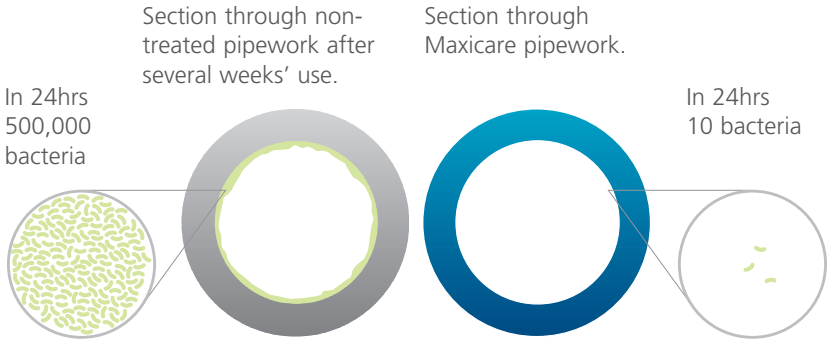
For the best of both worlds, why not choose a combination system? This includes both whirlpool jets (set into the bath side walls) and spa jets (set into the base) – and you can choose either the standard spa or SmoothSpa option.

HYGIENE FITTED AS STANDARD WITH MAXIDRAIN™ AND MAXICARE™

Maxicare

All Bronte whirlpool baths are fitted with Maxicare antibacterial pipework, the unique system which kills bacteria 24 hours a day 7 days a week for the lifetime of your bath.

Don't take our word for it! Independent laboratory tests prove that our Maxicare pipework is highly resistant to Staphylococcus aureus (a common skin bacteria) and legionella pneumophila (much more rare, but the common cause of Legionnaire's disease).



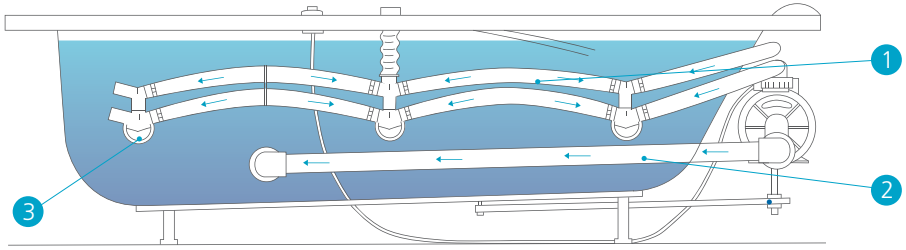
Section through non-treated pipework after several weeks' use.
Section through Maxicare pipework.
In 24hrs 500,000 bacteria
In 24hrs 10 bacteria

Independent laboratory tests show that our Maxicare pipework is highly resistant to bacteria.

Maxidrain

All our whirlpools are also fitted with Maxidrain pipework, the unique method of ensuring your pipes drain completely. This ensures no water is left behind in which bacteria can breed, becoming harmful and smelly.

Unlike most systems, with Bronte baths there's no need to use chemical disinfectants after every use. All you need to do is use our 'Refresh' care sachet once a month. Simple!



Maxidrain, with its arched pipe, v-shaped jets and sloping suction pipe, empties the water back into the bath and down the plughole. Simple – but effective.

1 Fully arched pipework
2 Sloping suction pipe
3 V-shaped jets

SYSTEM + BATH = BRONTE

At Bronte we believe in offering choice and have three ranges to choose from:

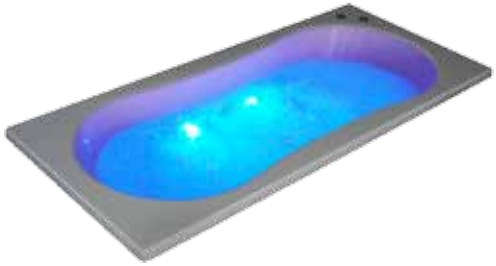
Original Range
The Original range offers easy to operate manual controls. A simple press of a button or twist of a knob is all that is needed to give you the massage you want.

Vogue Range
An electronic key pad made simple. Each button has one function; all it takes is one finger to keep you in control. Our clever electronics allows you to enjoy more built in features such as pulsing massage action, bath fill reminder, underwater light operation and more, for full details see the model specifications.

Viva Range
Top of the range gives you top of the range features. The Keypad has the addition of a display that keeps you informed and allows you to get the best from the extra features such as, five pulsing massage actions, clock, timer, temperature indicator, and even a radio.

Don't forget the extras....

... such as Aqualight - See page 18 for details



OUR RANGE AT A GLANCE

To help choose the system that is right for you the 'System Chooser' is a quick guide to the ranges we offer. Firstly pick the control range option (Original, Vogue, Viva) then follow down to choose the jet configuration: side jets, side jets with back and foot jets, spa or SmoothSpa not forgetting combinations. More details on each system are given on pages 6 to 17 and finally don't forget the options which makes your personal whirlpool or spa extra special.

Original Range

- Pump immobiliser

And finally...
Select your bath and fill in the planning sheet with all your choices.

ORIGINAL RANGE SINGLE SYSTEM

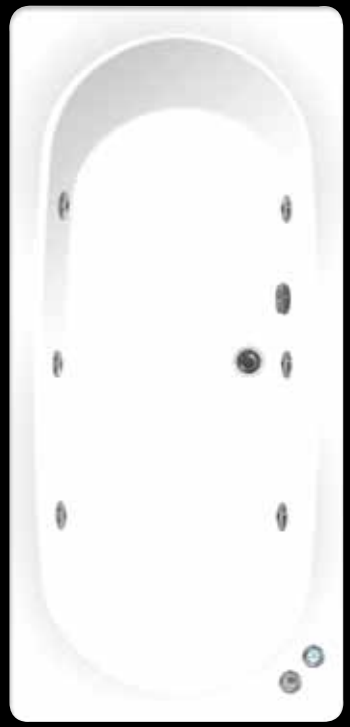
Manual Controls

Our Original range offers enjoyable, high-quality Bronte whirlpool and spa experiences at down-to-earth prices. The main difference is that the Original range features manual, rather than electronic, controls.

All of these systems include:

- self-draining Bronte Maxidrain pipework, to keep pipes dry and clean
- Bronte Maxicare antibacterial pipework on the whirlpools, for the safest, most hygienic system you can buy
- a pre-fitted pump on the whirlpools, for ease of installation
- a pre-fitted air blower on the spas, for ease of installation

Original Whirlpool



6 body

This is our Original Whirlpool, and we're very attached to it. It built our reputation and is the inspiration behind where we are today.

It's the most robust, reliable way to enjoy a high-quality hydromassage at an affordable price.

Jets

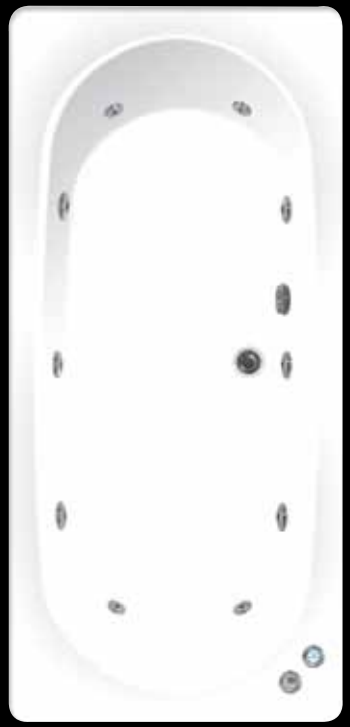
6 directable body jets set in to the side of the bath

Controls

push button manual on/off control

easy-turn massage power control

Phizzio Whirlpool



6 body 2 back 2 foot

It's like having your own physio session. The Phizzio Whirlpool has all the features of the Original Whirlpool, plus extra jets mounted at the head and foot of your bath. The jets are individually adjustable, so you can put the power right where you need it.

Jets

6 directable body jets set in to the side of the bath

2 jets for your back

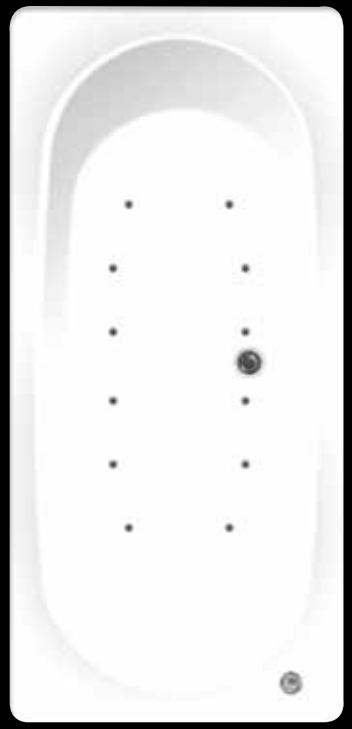
2 jets for your feet (back and foot jets individually adjustable).

Controls

push button manual on/off control

easy-turn massage power controls for the body jets and back and foot jets

Original Spa



12 spa

It's the original bubble bath: we mount 12 high-powered air jets in the base of your bath for a gentle, all-over massage.

Jets

Jets 12 low-profile air jets on the base

Controls

push button manual on/off control 5 speeds

a self-cleaning programme after each spa bath, either automatic or manual mode

a 30-minute timer

Original SmoothSpa

Available on selected Bronte baths

smoothspa

It has over 100 tiny holes in the base of the bath for a true all-over massage experience, without lumps or bumps. Sleek, simple and easy to use, a bubble bath will never be the same again.

Jets

over 100 tiny jets in base

Controls

push button manual on/off control 5 speeds

a self-cleaning programme after each spa bath, either automatic or manual mode

a 30-minute timer

Optional extras

Chromotherapy Aqualight

Turn out the bathroom light and relax in the gentle glow of a Bronte Chromotherapy Aqualight. At the touch of a button you can choose from one of 7 colours to suit your mood or use our cycle feature to enjoy them all in turn. For more details see page 18.

Additional body jets

Why not have even more of a good thing? Upgrading to 8 jets in a double-ended bath makes the bath look more balanced.

Additional back and foot jets

Two back and two foot jets are the standard on the Phizzio – but four back jets can be fitted on many baths, so you can get the massage in just the right place.

Additional spa jets

If 12 jets aren't enough, then up to 20 can be fitted (subject to bath size) for an all-over massage.

An inline heater

If you don't want to be topping up with hot water all the time, then an inline heater will keep your water at the perfect temperature.

Pump immobiliser

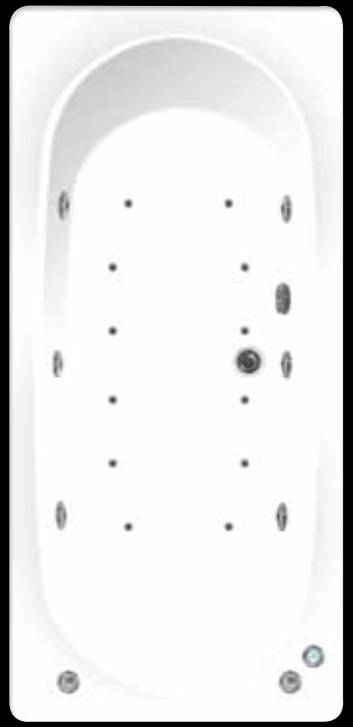
Prevents pump running when the bath is empty.

ORIGINAL RANGE COMBI SYSTEM

Manual Controls

This option lets you combine a whirlpool and a spa in one bath. So if you can't choose between them, why not have both? You may simply want the most advanced system there is, or you may be a self-confessed bath addict, and want it all. You can have it all when you opt for a combination system.

Original Combi



6 body
+ 12 spa

The best of both worlds! The Original Combi puts together the Original Whirlpool system and the Original Spa system on one bath.

Jets Whirlpool

6 directable body jets set in to the side of the bath

Jets Spa

12 low-profile air jets on the base

Controls Whirlpool

push button manual on/off control

easy-turn massage power control

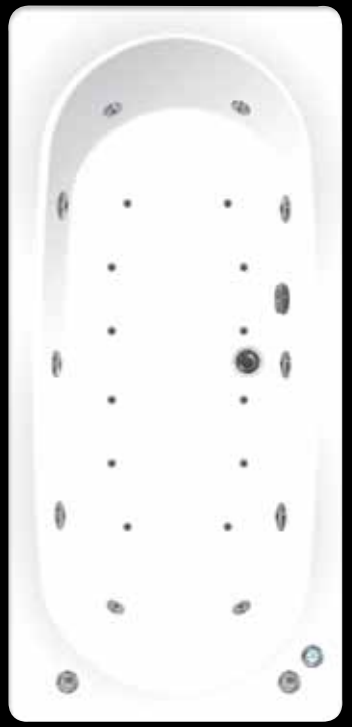
Controls Spa

push button manual on/off control 5 speeds

a self-cleaning programme after each spa bath, either automatic or manual mode

a 30-minute timer

Phizzio Combi



6 body 2 back
2 foot+ 12 spa

The Phizzio Combi puts together the Phizzio Whirlpool system and the Original Spa system. Whether you want to use the systems together or individually you are sure of a good workout.

Jets Whirlpool

6 directable body jets set in to the side of the bath

2 jets for your back

2 jets for your feet (back and foot jets individually adjustable).

Jets Spa

easy-turn massage power control

Controls Spa

push button manual on/off control 5 speeds

a self-cleaning programme after each spa bath, either automatic or manual mode

a 30-minute timer

Optional extras

Chromotherapy Aqualight

Turn out the bathroom light and relax in the gentle glow of a Bronte Chromotherapy Aqualight. At the touch of a button you can choose from one of 7 colours to suit your mood or use our cycle feature to enjoy them all in turn. For more details see page 18.

Additional body jets

Why not have even more of a good thing? Upgrading to 8 jets in a double-ended bath makes the bath look more balanced.

Additional back and foot jets

Two back and two foot jets are the standard on the Phizzio – but four back jets can be fitted on many baths, so you can get the massage in just the right place.

Additional spa jets

If 12 jets aren't enough, then up to 20 can be fitted (subject to bath size) for an all-over massage.

An inline heater

If you don't want to be topping up with hot water all the time, then an inline heater will keep your water at the perfect temperature.

Pump immobiliser

Prevents pump running when the bath is empty.

VOGUE RANGE SINGLE SYSTEM

SIMPLE ELECTRONIC CONTROLS

Our Vogue range introduces electronic controls, bringing a range of features which are not possible with manual controls.

These include our unique pulsing massage system, continually cycling the power from low to high for the most luxurious massage this side of Sweden.

The audible 'full bath' reminder means you can stay busy while your bath is filling. And the safety pump immobiliser means the pump can't operate if the bath is empty protecting the life of your pump (especially from curious little fingers!)

All Vogue systems also include:

- self-draining Bronte Maxidrain pipework, to keep pipes dry and clean
- Bronte Maxicare antibacterial pipework on the whirlpools, for the safest, most hygienic system you can buy
- a pre-fitted pump on the whirlpools, for ease of installation
- a pre-fitted air blower on the spas, for ease of installation

Vogue Whirlpool

6 body

You'll be delighted with the flexibility of the Vogue systems' electronic control. Whether starting or ending your day in a Vogue bath, each time you use it will be as enjoyable as the first.

Jets

6 directable body jets set in to the side of the bath

Controls

an elegant electronic touchpad
an on/off button
massage power adjustment button
a pulsing massage button
a bath-full reminder
pump immobiliser

Vogue Elite Whirlpool

6 body 2 back 2 foot

The Vogue Elite has all the features of the Vogue whirlpool plus additional, separately controlled jets for the back and feet.

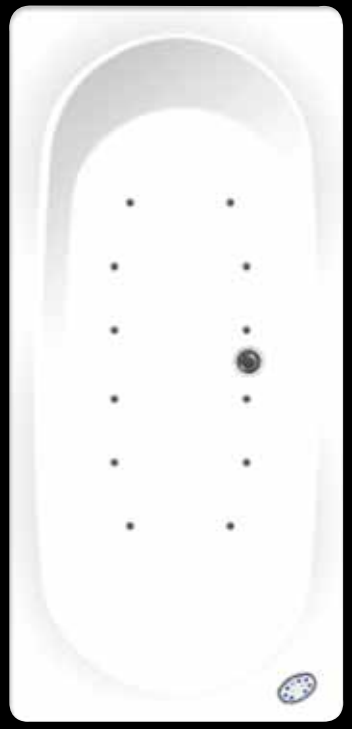
Jets

6 directable body jets set in to the side of the bath
2 jets for your back
2 jets for your feet (back and foot jets individually adjustable).

Controls

an elegant electronic touchpad
an on/off button
massage power adjustment button
a pulsing massage button
a bath-full reminder
pump immobiliser

Vogue Spa



12 spa

Luxuriate in a blast of warm air bubbles; float away and forget the day.

Twelve air jets, mounted in the base of your bath, put an all over body massage at your finger tips.

Jets

12 low-profile air jets on the base

Controls

an elegant electronic touchpad
an on/off button
a massage power adjustment button
a pulsing massage button
a self-cleaning programme after each spa bath, either automatic or manual mode

Vogue SmoothSpa

Available on selected Bronte baths

smoothspa

Luxury at your fingertips, the Vogue SmoothSpa offers over 100 tiny jets in the bath base to caress you all over all at the touch of a button. Use the pulse action to create waves of pleasure.

Jets

over 100 tiny air jets on the base

Controls

an elegant electronic touchpad
an on/off button
a massage power adjustment button

a self-cleaning programme after each spa bath, either automatic or manual mode

Optional extras

Chromotherapy Aqualight

Turn out the bathroom light and relax in the gentle glow of a Bronte Chromotherapy Aqualight. At the touch of a button you can choose from one of 7 colours to suit your mood or use our cycle feature to enjoy them all in turn. For more details see page 18.

Additional body jets

Why not have even more of a good thing? Upgrading to 8 jets in a double-ended bath makes the bath look more balanced.

Additional back and foot jets

Two back and two foot jets are the standard on the Vogue Elite – but four back jets can be fitted on many baths, so you can get the massage in just the right place.

Additional spa jets

If 12 jets aren't enough, then up to 20 can be fitted (subject to bath size) for an all-over massage.

An inline heater

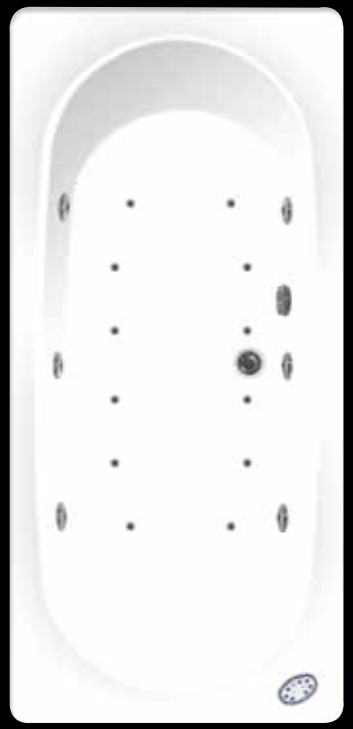
If you don't want to be topping up with hot water all the time, then an inline heater will keep your water at the perfect temperature.

VOGUE RANGE COMBI SYSTEM

SIMPLE ELECTRONIC CONTROLS

This option lets you combine a whirlpool and a spa in one bath. So if you can't choose between them, why not have both? You may simply want the most advanced system there is, or you may be a self-confessed bath addict, and want it all. You can have it all when you opt for a combination system.

Vogue Combi



6 body
+ 12 spa

Combine the Vogue Whirlpool and the Vogue Spa and you get the Vogue Combi. The advantage is both systems are controlled from one elegant keypad taking up less space on the rim of the bath and proves the point less is more.

Jets Whirlpool

6 directable body jets set in to the side of the bath

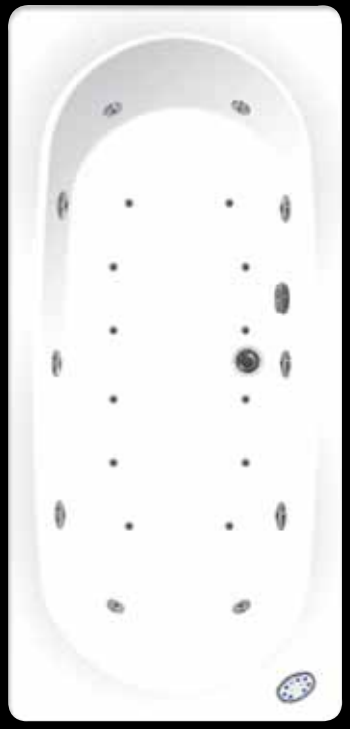
Jets Spa

12 low-profile air jets on the base

Controls

One elegant keypad to control both systems
an on/off button
whirlpool massage power adjustment button
spa massage power adjustment button
a pulsing massage button
a bath-full reminder
pump immobiliser
a self-cleaning programme after each spa bath, either automatic or manual mode

Vogue Elite Combi



6 body 2 back
2 foot+ 12 spa

Combine the Vogue Elite Whirlpool and the Vogue Spa and you get the Vogue Elite Combi. The advantage is both systems are controlled from one elegant keypad taking up less space on the rim of the bath and proves the point less is more.

Jets

6 directable body jets set in to the side of the bath
2 jets for your back
2 jets for your feet (back and foot jets individually adjustable).

Jets Spa

12 low-profile air jets on the base

Controls

an elegant electronic touchpad
an on/off button
power adjustment button
a pulsing massage button
a bath-full reminder
pump immobiliser
a self-cleaning programme after each spa bath, either automatic or manual mode

Vogue SmoothSpa Combi

Available on selected Bronte baths

6 body
+ smoothspa

The Vogue whirlpool and the Vogue SmoothSpa make a good combination because both systems can be controlled from a single elegant touchpad. Take full advantage of the of the systems features and enjoy.

Jets Whirlpool

6 directable body jets set in to the side of the bath

Jets Spa

over 100 tiny air jets on the base

Controls

one elegant keypad to control both systems
an on/off button

pump immobiliser
a self-cleaning programme after each spa bath, either automatic or manual mode

Vogue Elite SmoothSpa Combi

Available on selected Bronte baths

6 body 2 back 2 foot
+ smoothspa

With body, back and feet jets and a SmoothSpa with over 100 tiny air jets in the base we have all angles covered. And, it only takes one finger to operate the touchpad to put you in control, simple but beautiful.

Jets Whirlpool

6 directable body jets set in to the side of the bath
2 jets for your back
2 jets for your feet (back and foot jets individually adjustable).

Jets Spa

over 100 tiny air jets on the base

Controls

One elegant keypad to control both systems
a whirlpool on/off button
massage power adjustment button
spa massage power adjustment button
a pulsing massage button
a bath-full reminder
pump immobiliser
a self-cleaning programme after each spa bath, either automatic or manual mode

Optional extras

Chromotherapy Aqualight

Turn out the bathroom light and relax in the gentle glow of a Bronte Chromotherapy Aqualight. At the touch of a button you can choose from one of 7 colours to suit your mood or use our cycle feature to enjoy them all in turn. For more details see page 18.

Additional body jets

Why not have even more of a good thing? Upgrading to 8 jets in a double-ended bath makes the bath look more balanced.

Additional back and foot jets

Two back and two foot jets are the standard on the Vogue Elite – but four back jets can be fitted on many baths, so you can get the massage in just the right place.

Additional spa jets

If 12 jets aren't enough, then up to 20 can be fitted (subject to bath size) for an all-over massage.

An inline heater

If you don't want to be topping up with hot water all the time, then an inline heater will keep your water at the perfect temperature.

VIVA RANGE SINGLE SYSTEM

ADVANCED ELECTRONIC CONTROLS

Our Viva systems feature advanced electronic controls. There is a digital display to help you use the controls, also featuring a clock, timer and water temperature gauge.

You can choose from variable massage intensities, and five different pre-set massage programmes:

Lagoon	gentle, quiet and relaxing
Oasis	a soft, pulsating rhythm
Beach	reflecting the soothing ebb and flow of the tide
Surf	powerful waves of invigorating massage
Cyclone	from high to low power, for a good body workout.

Viva systems feature a full-bath sound alert and a safety immobiliser to prevent the pump from operating when the bath is empty. They also include:

- self-draining Bronte Maxidrain pipework, to keep pipes dry and clean
- Bronte Maxicare antibacterial pipework on the whirlpools, for the safest, most hygienic system you can buy
- a pre-fitted pump on the whirlpools, for ease of installation
- a pre-fitted air blower on the spas, for ease of installation

Viva Whirlpool

6 body

The Viva Whirlpool brings you advanced electronic controls and the unforgettable pleasure of massage programmes which are amazingly easy to use. You'll never want to climb in to an ordinary bath again.

Jets

6 directable body jets set in to the side of the bath

Controls

an elegant electronic touchpad
an on/off button
5 pre-set massage programmes
a massage power adjustment button
a digital clock
a water-temperature gauge
pump immobiliser
a full-bath reminder

VivaLux Whirlpool

6 body 2 back 2 foot

Like the name suggests, it's like the Viva – but with even more luxury. This is our top-of-the-range whirlpool, and features additional massage programmes making best use of the additional back and foot jets and even a 7-band FM radio.

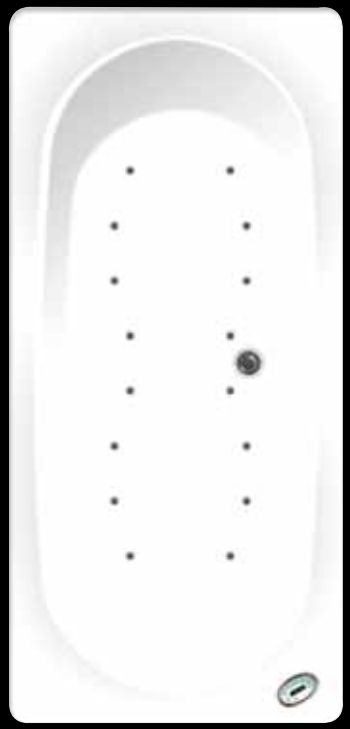
Jets

6 directable body jets set in to the side of the bath
2 jets for your back
2 jets for your feet (back and foot jets individually adjustable).

Controls

an elegant electronic touchpad
an on/off button
a built in 7-band FM radio
5 pre-set massage programmes
a massage power adjustment button
a digital clock
a water-temperature gauge
pump immobiliser
a full-bath reminder

Viva Spa



16 spa

The Viva Spa has the features of the Viva Whirlpools, but with the air jets in the base of the bath for an all-over massage.

Jets

16 low-profile air jets on the base

Controls

- an elegant electronic touchpad
- an on/off button
- 5 pre-set massage programmes
- a massage power adjustment button
- a digital clock and programmable timer
- a full-bath reminder
- a self-cleaning programme after each spa bath, either automatic or manual mode

Viva SmoothSpa

Available on selected Bronte baths

smoothspa

The Viva SmoothSpa has the features of the Viva Whirlpools, but with over 100 tiny air jets in the base of the bath for an all-over massage. With five pulsing massage programmes there is bound to be one that is right for you.

Jets

over 100 tiny air jets on the base

Controls

- an elegant electronic touchpad

- a water-temperature gauge
- a full-bath reminder
- pump immobiliser
- a self-cleaning programme after each spa bath, either automatic or manual mode

VivaLux SmoothSpa Combi

Available on selected Bronte baths

6 body 2 back 2 foot
+ smoothspa

Surrounding you with jets in the back, foot, side and over 100 tiny jets in the base it's like bathing in champagne! As a further assault on the senses you can listen to music because the seven band radio is standard. Finally if you take the option of the Bronte Aqualight it really is lights, music, action!

Jets Whirlpool

6 directable body jets set in to the side of the bath
2 jets for your back
2 jets for your feet (back and foot jets individually adjustable).

Jets SmoothSpa

over 100 tiny air jets on the base

Controls

- an elegant electronic touchpad
- an on/off button
- a built in 7-band FM radio
- 5 pre-set massage programmes
- a massage power adjustment button
- a digital clock
- a water-temperature gauge
- a full-bath reminder
- pump immobiliser
- a self-cleaning programme after each spa bath, either automatic or manual mode

Optional extras

Chromotherapy Aqualight

Turn out the bathroom light and relax in the gentle glow of a Bronte Chromotherapy Aqualight. At the touch of a button you can choose from one of 7 colours to suit your mood or use our cycle feature to enjoy them all in turn. For more details see page 18.

Additional body jets

Why not have even more of a good thing? Upgrading to 8 jets in a double-ended bath makes the bath look more balanced.

Additional back and foot jets

Two back and two foot jets are the standard on the VivaLux – but four back jets can be fitted on many baths, so you can get the massage in just the right place.

Additional spa jets

If 16 jets aren't enough, then up to 20 can be fitted (subject to bath size) for an all-over massage.

An FM radio

A 7-band FM radio is optional on the Viva and Viva Spa (fitted as standard on the VivaLux). If you have a transmitter on your MP3 player, you can tune your radio to pick up your own music!

An inline heater

If you don't want to be topping up with hot water all the time, then an inline heater will keep your water at the perfect temperature.

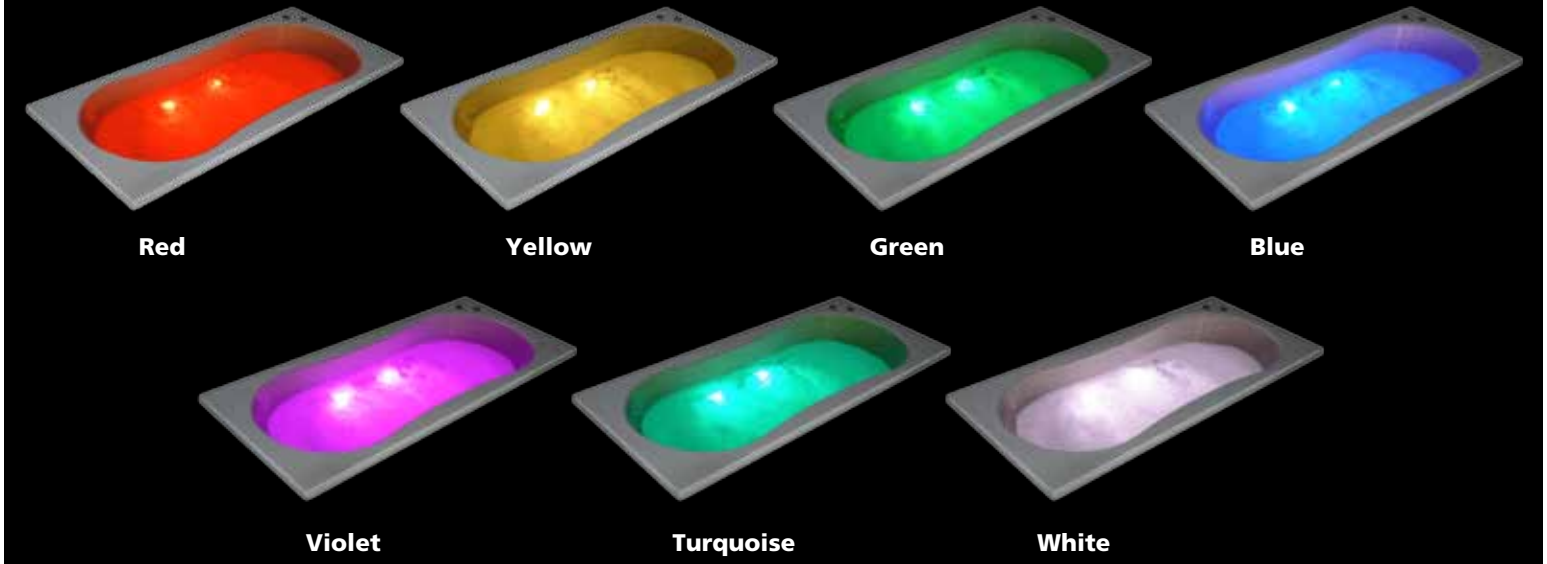
CHROMOTHERAPY AQUALIGHT

The Bronte Chromotherapy Aqualight has been designed to suit your mood. At the touch of a button you can choose from one of 7 colours or use our cycle feature to enjoy them all in turn. Simply press the button to turn the light on and again to turn it off. The next time you turn it on, it will even remember the last colour you selected.

To change the colour 'double click' the button - simple.

You can choose from Red, Yellow, Green, Blue, Violet, Turquoise and White, or you can choose the last feature which continuously cycles through the colours in the sequence above without you having to lift a finger.

You can have one or two Aqualights in the bath. Brighten up your bath time with a Bronte Aqualight.



Red **Yellow** **Green** **Blue**

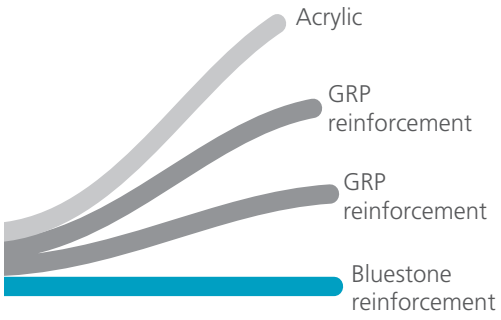
Violet **Turquoise** **White**

BRONTE BATHS

Reinforcement

Bronte baths are available in two types: standard reinforced or Bluestone extra-reinforced. See pages 19-27 for our bath range. Bronte Bluestone triple-reinforced baths are robust enough to take the pressures of frequent use (because yes, you'll be in there a lot). It's a strengthening process designed to cope with powerful hydromassage and the demands of a pump and/or air-blowing system. Year after year, your bath will hold up without moving or creaking when it shouldn't.

Bronte standard reinforced baths offer excellent quality and value, so you can have style on a budget.



The finishing touch

The bath panel is an essential and integral part of your bath: finish off your look on page 28.

TRONA 70, TRONA 75

The trona is classically designed to be the pride of any bathroom. Featuring clean and simple lines, and with integral armrests, trona is the ultimate in understated elegance.

Single-ended

DEPTH

420mm

SIZES AVAILABLE

Trona 70 1700mm x 700mm
Trona 75 1700mm x 750mm

REINFORCEMENT

Trona 70 Bluestone and standard
Trona 75 Bluestone

NAVY 56

A traditional 5'6" bath made for tight spaces, or where a little extra space is required. Don't be fooled, though: the interior is designed to make the best use of the space. A good bathing area and clean design let you save space whilst remaining stylish. Available with the full range of Bronte jet systems, navy 56 simply proves that traditional can be anything but boring!

TYPE

DEPTH
400mm

SIZES AVAILABLE
1680mm x 685mm

REINFORCEMENT
Bluestone

GARZO

A bath for the serious bather. A full 1800mm long by 800mm wide and single-ended, so you can stretch out and wallow to your heart's content. To make the most of all that extra space, a Bronte whirlpool system will make your day every day.

TYPE
Single-ended

450mm

SIZES AVAILABLE
1800mm x 800mm

REINFORCEMENT
Bluestone

IVESSA SOLO

Ivessa solo is a contemporary design for one. Its square shape will complement the modern bathroom. With an external size of 1700mm x 750mm it has a generous bathing area with enough room to spoil yourself. Available with a full range of Bronte systems including a SmoothSpa.

TYPE
Single ended

DEPTH
430mm

SIZES AVAILABLE
1700mm x 750mm

REINFORCEMENT
Bluestone

IVESSA
(AVAILABLE IN 2 SIZES)

Crisp, clean and contemporary that's Ivessa. It may look stunning, but this isn't a case of style over substance: at 1800mm x 800mm, Ivessa can be enjoyed by two or serve as sheer indulgence for one. Any of the Bronte Whirlpools are available on this bath, and you can also have the SmoothSpa option.

TYPE
Double-ended

DEPTH
450mm

SIZES AVAILABLE
1700mm x 800mm
1800mm x 800mm

REINFORCEMENT
Bluestone and standard

BERGAMOT
(AVAILABLE IN 4 SIZES)

A fabulous contemporary design available in four sizes, right up to a very generous 1800mm x 900mm. Its wide tap platform offers an array of possibilities making this bath just as versatile as you like.

TYPE
Double-ended

DEPTH
400mm to 450mm

1700mm x 750mm
1800mm x 800mm
1800mm x 900mm

REINFORCEMENT
Bluestone and standard

ECHELON BOW

Just to prove that a standard-size bath can be more than standard, the Echelon makes superb use of space. At only 1700mm x 700mm, it will fit most bathrooms but at 800mm at the bow front, it uses space often lost in a bathroom. It's not just practical, either: with its clean lines and simple design, it will be as much at home in a traditional bathroom as a contemporary one.

TYPE
Double-ended

DEPTH
400mm

SIZES AVAILABLE
1700mm x 700mm
(800mm to Bow)

REINFORCEMENT
Bluestone

Includes front panel

MAGENTA

Amazingly versatile, Magenta is small enough to fit most bathrooms, turns your bath into a shower whenever you want, and offers super luxury. A silver front shower screen is available, which opens out for easy access and folds away when not in use, and an optional back-to-wall screen completes the full shower cubicle. Make the best use of your space and your time, with Magenta.

TYPE

Single-ended (taps and waste at one end). Available right-handed or left-handed

DEPTH

400mm

SIZES AVAILABLE

1700mm x 750mm
(850mm at the widest part)

REINFORCEMENT

Bluestone and standard

Includes front panel

Shown: left-handed

AZURE

Make a design statement and the best use of space with the Azure. This popular classic is an offset corner bath with a generous bathing area; lie back, relax, and let the jets carry your cares away.

TYPE
Single-ended (taps and waste at one end). Available right-handed or left-handed

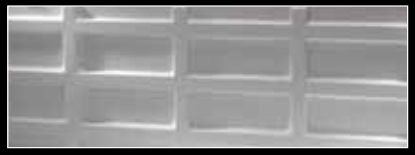
BATH PANELS

GEO-LINE

The latest design in bath panels, to complement the latest designs in baths. But these good looks aren't just skin-deep: each panel has extra box-section backing for extra strength and rigidity. Available in three sizes, they can be cut and trimmed to a perfect fit without losing strength.

SIZES AVAILABLE

1700mm
1800mm
800mm and 900mm
for the end panel



IT'S YOUR CHOICE!

The most important thing to remember is that Bronte means choice. Any of our whirlpool or spa systems can be fitted to any of our baths – or even a bath you've selected from elsewhere (ask your showroom for details).

Hand-built

We never forget that it's your bathroom. So we build choice into everything. Our comprehensive range offers something for everyone, from economy solutions to the highly functional and more expensive.

For example, our whirlpool and spa options can be combined. We'll fit our systems to other manufacturers' baths. And we give you plenty of options for designing a system that's just right for you and your bathroom. We'll do all we can to position your jets, your controls – and even the pump – precisely where you want them.

Ease of installation

All Bronte baths are supported by a heavy-duty frame, with the massage powerpack already fitted. This means all your plumber has to do is connect the taps and waste, and all your electrician has to do is wire in the power supply. (With a bath sourced elsewhere, we use its own frame and fit our own pump stand to take our pump.)

Your guarantees

All Bronte hydromassage systems comply with European Standard EN60-335, part 2.

They are also fully guaranteed against faulty workmanship or materials, as follows:

Controls	2 years
Pipework	10 years
Bronte bathtubs	25 years

Please note that these periods do not represent the expected lifespan of each component, but a reasonable time within which any faulty workmanship or parts should come to light. These guarantees do not affect your statutory rights. Terms and conditions apply.

CARESS BATH
Special Needs

Caress sit in bath
If bathing in a standard bath is difficult the Caress sit in bath is designed for you. It has a special double hinged door that makes access easy. The door lever is positioned on top of the bath within easy reach so you won't be left high and dry. The Caress bath gives you the independence to get on with your life and we can add a whirlpool or spa system for that added piece of luxury.

Available with a left or right handed door.

All special needs baths must be fitted with a Thermostatic Mixing Valve

Patented pivot doors allow easy closure when sat in bath. Bath shown with right hand door.

VALET SHOWER BATH
Special Needs

Valet Shower Bath
We all need a little help sometimes so that is why we offer the Valet Shower Bath. Here to help when you need it. The side door allows low level access to the shower area but with the door closed you can enjoy the pleasures of a bath. We can also offer a whirlpool or spa system for an extra bath time treat!

Available with a left or right handed door.

All special needs baths must be fitted with a Thermostatic Mixing Valve

Bath shown with right hand door

PLANNING YOUR DREAM BATH

From a company like Bronte, you'd expect nothing less than a hand-made system. And that's exactly what you'll get. That means you can choose the specification that works perfectly for you and your bathroom – so installation is simpler for you and your plumber.

Choosing the perfect whirlpool or spa system from Bronte is easy. But to help you, here are some step-by-step guidelines – because taking a few extra minutes now could increase your bathtime pleasure for years to come. Or you can leave it to us: if you don't give us a specification, we'll deliver your bath the way it appears in the brochure. Either way, nothing could be simpler.

We suggest you find a sharp pencil and a rubber, and start with the planning grid we've provided. (Remember to make your drawing clear enough for someone else to understand, and use a key to explain any abbreviations you use, eg 'T = taps').

If you need assistance with your design, please don't hesitate to call us here at Bronte, or ask your local showroom. We're all here to help. And to make your bathroom a better place.

What to do

Here's how to plan your dream bath:

1 Draw in the shape of the bath – one of the drawings overleaf will help you. Some baths come right- and left-handed, so be sure to indicate the one you want.

2 Sketch in your bathroom walls. This way, we'll be able to tell which is the open (front) side of the bath, and we'll be able to position the pump and controls for easy access.

3 Mark on the tap positions and where the waste is, and if you plan to use an overflow filler. If you've selected a Bronte bath, we'll already know where the waste is. All Bronte baths are supplied un-drilled, so you can choose the taps that best suit your bathroom.

4 Are you having a shower screen? If so, show its position on your diagram. That way, we won't put the controls in a place that would clash with the screen.

5 Show where you'd like us to position the controls. We'll endeavour to get them right on the spot, or as close as technically possible.

6 Finally, what type of panel will you require? Is it contoured plastic, wood, or will the bath be tiled-in? We need to know, so that we can ensure your pipework steers well clear. Whichever you choose, remember that access must be possible for servicing.

TECHNICAL

You or your plumber may find the following information useful:

Electricity supply

13 Amp
230V
50Hz

Connection must be made through an RCD.

Standard pump: 900W, 3.9 Amp
Blower: 600W, 2.6 Amp

(The pump and blower are pre-mounted to the bath on a rigid frame, for easy installation.)

Plumbing

All Bronte baths are supplied un-drilled, for your choice of taps. Plumbing the bath in is the same as for any standard bath.

Installation instructions

If you would like a copy of the installation instructions prior to receiving your bath, please contact us and we'll be happy to send a copy to you.
